REPORTED BY MR. GALLINGER.

IN THE SENATE OF THE UNITED STATES,
February 14, 1916.

Resolved, That the manuscript submitted by the Senator from New Hampshire (Mr. Gallinger), on February 7, 1916, entitled "Statement of public buildings occupied, in course of construction, and authorized, used or intended for use in whole or in part as post offices; also sites for same," be printed as a Senate document, and that 1,000 additional copies be printed for the use of the Senate document room.

Attest:

JAMES M. BAKER,
Secretary.

GOVERNMENT PUBLIC BUILDINGS.

There are 1,479 projects in the following list. For various reasons the Census Bureau was unable to furnish estimates in 13 instances, leaving 1,466 cases for which a fair estimate of the population at the time of the authorization of the project has been furnished. Of this number—

973	towns,	or	66.4%	are	under	10,000	population.
922	"	"	62.9%	"	"	9,000	"
838	"	"	57.2%	"	"	8,000	"
756	"	"	51.6%	"	"	7,000	"
674	"	"	46.0%	"	"	6,000	"
541	"	"	36.7%	"	"	5,000	"
385	"	"	26.3%	"	"	4,000	"
216	"	"	14.7%	"	"	3,000	"
73	"	"	5.0%	"	"	2,000	"
5	"	"	0.3%	"	"	1,000	"
493	"	"	33.6%	"	over	10,000	"

One hundred and two of the towns, or 7 per cent of the whole, were actually decreasing in population at the time of the authorization of the project.

In 1910 there were, according to the census of that year, 66 communities of over 10,000 population which up to the present time have not received a Federal post-office building, and probably this number has been increased during the past five years. It is true that some of those places are in close proximity to large cities, and doubtless receive their mail promptly through the post offices in those cities, but probably they would be much pleased to have their streets beautified by an expensive Federal building, which of course is the principal reason for erecting such structures in the much smaller towns and villages throughout the country.

Statement of public buildings occupied, in course of construction, and authorized, used or intended for use in whole or in part as post offices; also sites for same, purchased or authorized.

[Compiled from the Annual Report of the Supervising Architect of the Treasury Department for the fiscal year ending June 30, 1915.]

The dates given are the dates of original authorization of site or building.
 The population is that at the time of authorization, as estimated by the Bureau of the Census.
 In the case of completed projects the total cost of construction is given, while in uncompleted projects the limit of cost as fixed in the act of authorization is given.
